EDUCATION

BSC CAs
MCM Dav college for women
chandigarh
June 2019 - July 2023

TECHNICAL SKILLS

Express.js | Node.js | MongoDB |
React | JavaScript | CSS | HTML5 |
Redux | Sql | java |
Responsive Web Design

SOFT SKILLS

Problem Solving |
Attention to Detail | Adaptability |
Effective Communication |
Teamwork | Time Management

INTERESTS

- Watching movie
- playing Games

Kajal Kumari

Full Stack Web Developer

PROFESSIONAL SUMMARY

Dynamic Full Stack Web Developer adept in MERN stack, JavaScript, and RESTful API design. Proficient in collaborative development, problem-solving, and creating scalable web applications. Excels in team environments and continuous improvement.

PROJECTS

1. Travel With Us | |

JavaScript | HTML | CSS | Responsive Web Design

- Developed user-friendly platform allowing users to search, compare, and book worldwide accommodations.
- Implemented advanced filtering options, enhancing user experience and allowing customized searches.
- Collaborated on the design and backend integration to ensure smooth and efficient features.

2. Beyond Boundries | |

JavaScript | React | Redux | Git | Responsive Web Design

- Developed and maintained responsive frontend components using React, ensuring a seamless user experience across devices.
- Implemented state management using Redux to efficiently handle application state and improve performance.
- Utilized Chakra UI for consistent and visually appealing design throughout the web application.
- Integrated with JSON Server for mock API development, facilitating smooth data interactions and backend testing.
- Collaborated with team members to fetch data via axios and dynamically display job listings, user profiles, and other relevant information.

3. Leno Flex | |

HTML | CSS | Sass | BootStrap

- Contributed to the development of a dynamic website using HTML, CSS, Sass, and Bootstrap.
- Implemented advanced design elements such as sticky navbar, pixel-perfect design, and hover effects to enhance user experience.
- Ensured a user-centric navigation experience with a sleek and responsive footer.
- Focused on delivering an immersive shopping journey with secure browsing and transactions.

- Collaborated with a team of 5 to meet project requirements and enhance overall site performance.

4. BrightFuture | |

JavaScript | Redux | Git | React | Node.js | Express.js | MongoDB |

Responsive Web Design

- Collaborated with a team of developers, designers, and product managers to create a scalable crowdfunding platform using the MERN stack.
- Developed and maintained efficient server-side APIs using Node.js and Express.js.
- Implemented responsive user interfaces with React.js to ensure seamless user experience across various devices.
- Designed and optimized MongoDB database models to efficiently handle user and project data.
- Integrated secure user authentication and payment functionalities, ensuring data integrity and transaction reliability.
- Conducted thorough testing and debugging processes to identify and resolve issues, enhancing application stability.
- Utilized Git for version control to manage collaborative development efforts and maintain code quality.
- Implemented multilingual support and currency conversion features to broaden the platform's accessibility.

5. Petpals | |

JavaScript | React | Redux | Git | Node.js | Express.js | MongoDB |

Responsive Web Design

- Collaborated with product managers and designers to define project requirements and ensure they are translated into functional and scalable features.
- Developed efficient server-side APIs using Node.js and Express.js to handle user authentication, project creation, and funding options.
- Implemented and maintained frontend components using React.js and Redux, enhancing the user experience with features like progress tracking and multilingual support.
- Optimized database models and queries in MongoDB to ensure smooth integration and retrieval of user data and transactions.
- Ensured seamless integration between frontend and backend systems for payment processing and currency conversion.
- Conducted thorough testing and debugging to identify and resolve issues, improving the reliability and stability of the application.

- Stayed updated with the latest web development trends and applied best practices to continuously improve code quality and development workflows.

6. FIGMA-DESIGN | |

Responsive Web Design | **HTML5** | **CSS3** | **Sass** |

- Converted pixel-perfect Figma designs into responsive web pages using HTML5, CSS3, and Sass.
- Ensured precise alignment and visual harmony in all design elements for a clean and modern aesthetic.
- Collaborated with a team of 5 to maintain consistent design standards across the project.
- Optimized layout for readability and balance with crisp typography and well-defined spacing.
- Applied thoughtful color choices for a cohesive and visually pleasing user experience.
